

CompassRespond

Portable Situational Awareness System Empowers Tactical Response

Real-time situational awareness and safety are paramount, you need CompassRespond®. If there is no or limited land mobile radio coverage or cellular service available, the solution is to bring your GPS tracking system with you.

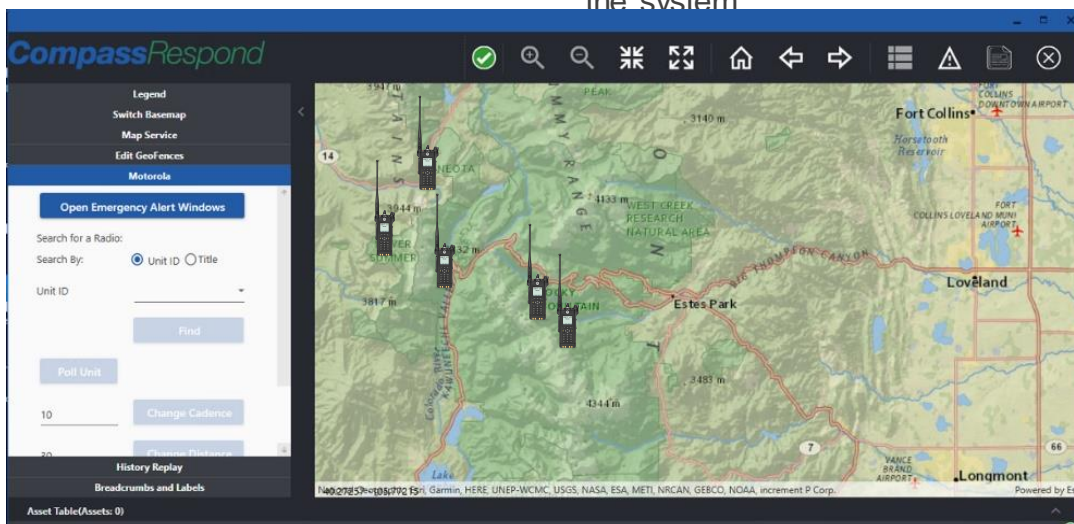

CompassRespond can be deployed with Motorola APX in simplex “Talk Around” mode or with a Motorola PDR8000 portable repeater to provide enhanced conventional LMR coverage over an expanded area. CompassRespond with Esri ArcGIS mapping is the ideal last mile solution for “off the grid” tactical operations.

Key Features:

- Supports location Tracking for Motorola® APX Series P25 Portable & Mobile Radios
- Real-time display of radio assets on your map
- Supports Location Transmitted on Push to Talk (PTT)
- Emergency functionality on radio Emergency Button
- Supervisors can poll radio location-on-demand
- Supports Geofencing Alerts
- Easy deployment
- Location can be provided based on pre-determined radio cadence or distanced travelled
- Historical Replay feature provides support for after action “incident analysis”
- Empowered by ArcGIS map data
- Customer has the capability to load their own Area of Operations (AO) mapping data
- Proven Mission-Ready Tactical Solution
- One person can carry and deploy the system

Benefits:

- Supervisors can coordinate all team members in real-time on common operational picture
- Monitor tactical response resources and quickly re-direct as on the ground conditions change
- Portable system efficiently manages resources anywhere on demand to protect the lives of your team and the public they serve

CompassRespond Technical Specifications

CompassRepond

- Delivered as a complete ready to deploy package. CompassRespond ships in a hardened plastic case which includes: Ruggedized laptop with both standard and vehicle chargers. The case is customized to provide protection for a customer provided Motorola Solutions APX Series portable radio and charger.

CompassRespond Laptop

Dell Latitude 5420 Rugged:

- 16GB, 2x8GB, 2666MHz DDR4 Non-ECC
