CompassCom®

FOR IMMEDIATE RELEASE

CompassRespond® v2.0 Portable Situational Awareness System Empowers Tactical Response

Denver, Colorado- (August 6th, 2020) - CompassCom is releasing CompassRespond® Version 2.0 of its industry leading tactical response system. CompassRespond empowers first responders to leverage their ASTRO P25 Motorola APX radios in simplex "Talk Around" mode or Motorola® PDR8000 portable repeater with real-time location data to support mission coordination on ruggedized laptops where wireless coverage is not readily available. CompassRespond uses Esri®, ArcGIS mapping technology for background maps for the area of interest. Join our virtual event August 12th, 10:00 am to 11:00 am MDT to see how CompassRespond can support your mission, register at www.compasscom.com.

Since 1994 CompassCom provides geospatial information you can trust to deliver results. As a Motorola Solutions Partner and Esri Business Partner CompassCom integrates the technology used by First Responders to empower safety, efficiency, and accountability for agencies across the globe. CompassCom technology enables users to utilize Motorola ASTRO P25 APX mobile and portables deployed in the field. The system is portable and packaged in a ruggedized case making it deployable by a single operator and mission ready in minutes. CompassRespond includes history replay, geofencing, emergency alerts, pole on demand and location on push to talk functionality displayed on fit for mission maps. System is delivered with Esri ArcGIS map backgrounds or can be customized with agency maps to empower critical decisions by users at all levels.

Operational support for Special Operations, Department of Defense, Law Enforcement, Fire Rescue, SWAT, Security, Wildland Fire Fighting, Event Security, Disaster Response, and Hazmat Teams require real-time location data to deliver the right resources, to the right place, at the right time. CompassRespond with ArcGIS map data support agency's requirements empowering situational awareness with a common operational picture.

Join our virtual event August 12th to learn more at www.compasscom.com. The CompassRespond system is available for purchase from CompassCom and Motorola Solutions Sales teams. Contact CompassCom today for a live demo or request a loaner system for evaluation.

About CompassCom

CompassCom has been at the forefront of the GPS Tracking industry since 1994 as a Motorola Solutions and Esri Partner providing enterprise-level mobile IoT solutions. Our flexible solutions support on-premise, cloud, secure hardened and managed service deployments with location data that works for you.

From AVL to enhanced command and control, CompassCom provides a real-time common operational picture for governments and industry including public safety, defense, public works, DOTs, utilities, energy, and other organizations that require real-time solutions tailored to support their mission. To request a live demo and more information, visit www.compasscom.com, email: solutions@compasscom.com, or call 303-680-3311.
