ASSET MANAGEMENT SYSTEM (AMS)

MANAGE YOUR WORK. ANYWHERE. ANYTIME.

For more than 20 years, Cityworks has been the leading GIS-centric solution for public asset management. Cityworks AMS is designed to help organizations manage public assets and their associated data, work activities, and business processes. We are committed to helping cities and utilities build resilient, safe, and sustainable communities.

Give staff the power of GIS and automation. Cityworks AMS is built exclusively on ArcGIS, giving both office staff and field crews access to real-time data and simplified workflows.

Streamline operations. Configure templates and inboxes to help manage work, track costs, and improve operations. Complete work anywhere and on any device.
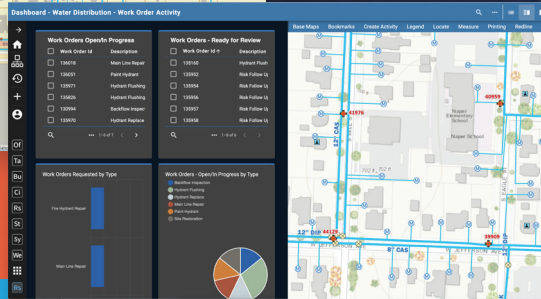

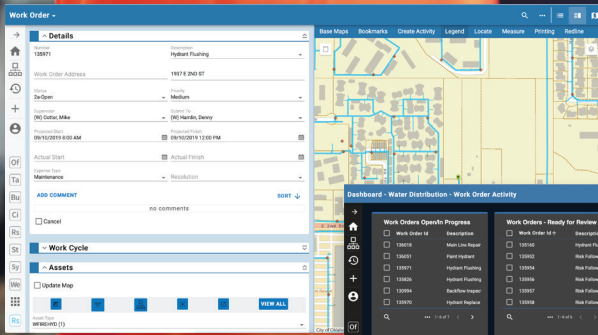

Improve collaboration. Share asset data and streamline communication among employees, across departments, and with your customers.

Identify and evaluate risk. Cityworks and ArcGIS can help you identify your riskiest assets and put the right plans in place to improve them.

Make insightful decisions. Use dashboards, analytics, and maps to visualize data, understand resources, and report more accurately.

SOLUTIONS FOR:

- **Work Orders**
- **Service Requests**
- **Inspections**
- **Warehouse Management**
- **Reports and Analytics**
- **Mobile Workforce**
- **Infrastructure Management**
- **Vegetation Management**
- **Pavement Management**
- **Facilities and Plant Management**

THE GIS-CENTRIC PLATFORM

Leverage your investment in GIS without redundancy, data synchronization, or special integration.

Use the ArcGIS geodatabase as the authoritative system of record for **all asset classes**—linear, dispersed, and condensed.

Support your organization throughout the entire **asset management workflow**: from data collection and work management to regulatory reporting and strategic planning.

Use ArcGIS tools for simple and **effective location intelligence**, supported by web maps and single sign-on access to Esri apps and analytics solutions.

GIS-Centric
Built exclusively on Esri® ArcGIS®, Cityworks helps you fully leverage your authoritative GIS data and provides a total solution to improve your agency's operational effectiveness.

Open Architecture
Cityworks is built on open standards, giving you complete access to your data in an open architecture that easily integrates with existing business systems.

Flexible
Easily create templates to manage common asset management activities. Or, think outside the box and modify them for virtually any business process where workflow, tracking, and GIS are needed.

Mobile
Empower your field crew to interact directly with GIS assets by collecting information, reporting observations, uploading pictures, completing outstanding tasks, and using visual map tools to streamline workflows.

Public Engagement
Cityworks data and ArcGIS tools empower your customers to provide input, remain informed, and monitor progress.

Location Intelligence
GIS maps offer a superior platform for interpreting data and supporting location intelligence. Cityworks and ArcGIS help local governments and utilities do more with less when managing capital infrastructure and regulations.
